SUMMARY

Passionate Full Stack Developer with expertise in the MERN stack, building scalable, high-performance web applications. Proficient in JavaScript, React.js, Node.js, Express.js, and MongoDB, with hands-on experience in RESTful API development, PostgreSQL, and strong foundations in Data Structures & Algorithms (DSA).

TECHNICAL SKILLS

Languages: : C, Python, JavaScript, SQL

Web Development: React.js, Next.js, HTML/CSS, Bootstrap, Tailwind CSS, Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL

Technologies & Tools : Git, GitHub, Drizzle ORM, Postman, Insomnia, JWT, Figma, Firebase, Material-UI, ShadCN

EXPERIENCE

Full Stack Developer Intern

Jan 2025 – Present

Luminar Technohub

Kochi, Kerala

- Building adaptive and high-performance user interfaces using React, Tailwind CSS, and Bootstrap by implementing customized system designs to optimize responsiveness and efficiency.
- Developing, implementing, and maintaining RESTful APIs using Node.js to facilitate seamless communication between the client and server.
- Designed, structured, and optimized MongoDB schemas to ensure efficient data organization, seamless indexing, and high-performance query execution.

Mern Stack Developer Trainee

Nov 2023 – July 2024

Luminar Technolab

Kochi, Kerala

- Developed and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to deliver scalable and high-performance solutions.
- Built robust and secure backend services with Node.js and Express.js, integrating JWT-based authentication and authorization mechanisms.

PROJECTS

Ai-MockInterview | *Next.js, Javascript, Drizzle Orm, Gemini AI, Clerk, PostgreSQL*

[Live Demo](#)

An AI-powered interview mock system that generates personalized interview questions and answers based on job descriptions and experience levels, helping candidates prepare effectively while allowing recruiters to assess responses efficiently.

Smart Leave | *React, JavaScript, Bootstrap, Firebase, Node.js, Express, MongoDB,*

[Github](#)

Developed an intelligent leave management system to automate leave requests, approvals, and record-keeping, enabling managers to efficiently track and manage employee leave records.

Project Fair | *React, JavaScript, Bootstrap, Node.js, Express, MongoDB, Postman*

[Github](#)

Implemented a platform enabling developers to showcase their projects with GitHub links, empowering users to efficiently view, search, and filter shared projects using advanced search functionality.

EDUCATION

A.P.J Abdul Kalam Technological University

B.tech in Computer Science And Engineering

Kerala

Aug 2019 – July 2023

CERTIFICATIONS

- MERN Stack Development – NACTET (National Council for Technology & Training) (2024)
- JavaScript Algorithms And Data Structures from FreeCodeCamp (June 2024)
